# BILAM®

## BINDING WIRE FOR WEAVING REEDS

---

### **BILAM® C10**

---

First-class drawn copper-coated round wire with exceptionally tight tolerances and appropriate mechanical properties to assist reed setting and to ensure a perfectly accurate and consistent spacing for even and correct distribution of warp ends.

### **BILAMINOX®**

---

First-class drawn stainless steel round wire with exceptionally tight tolerances and appropriate mechanical properties to assist reed setting and to ensure a perfectly accurate and consistent spacing for even and correct distribution of warp ends.

Specifications and technical data on our website [www.lamprec.be](http://www.lamprec.be) under BILAM®
